

Rahukalanal Chakra

(Astrological Researches Group, By: Jitender Kumar, Dated: 16 May 2013, Thursday)

Useful in selection of Muhurta for: Travelling and major auspicious events of life like first travelling through Sea and Air, Marriage, Construction of Residence, Business projects of high volume, Taking Oath for Ministership etc.

Rahukalanal Chakra (RC) is based on SaptaShalaka Chakra in which 7 horizontal and 7 vertical lines are drawn intersecting each other and then 28 Nakshtras, from Karitika onward (including Abhijit as independent) are arranged from Ishan Kon (North East direction) as shown in below picture.

The Nakshatra where Rahu is present is known as Rahu Mukh (Dragon Head) and from Rahu Mukh... the 15th Nakshatra is known as Rahu Pooch (Dragon's Tail i.e. Ketu). The 13 Nakshatra

of backward are known as “Jeeva (Live) Nakshatraa” (Bhukt Nakshatra (भुक्त)- which is has transited) and the 13 Nakshatra of front are known as “Mrit (Dead) Nakshatras” (Bhogya Nakshatra (भोग्य)- which has to transit).

For example: If Rahu is present in Revti nakshatra, then Ashawani to Hast (भुक्त) are known as Jeeva Paksha Nakshtras, Ketu will be present in the 15th nakshatra and Swati onward up to UtraBhadrapada including Abhijeet are known Mrit Paksha Nakshatra.

This way, Rahukalanal Chakra can be used for Natal Chart and Horary Chart to judge the Auspicious and Inauspicious Muhurtas based on Rahu, Sun and Moon’s transit as:

- Travelling will be auspicious when Moon is present in Jeeva Paksha nakshatra and Sun is present in Mrit Paksha nakshatra.
- If Moon and Sun, both, are present in Jeeva Paksha nakshtras at the start of travelling, that results in Well organized, successful and benefic travelling.
- If Moon and Sun, both, are present in Mrit Paksha nakshtras at the start of travelling, that results in unorganized, loss, tough and even dangerous travelling.
- Rahu & Ketu always transit retrograde, so transit’s direction need to follow reverse.

Over all, Moon should be auspicious i.e. in Jeeva Paksha nakshtras, as in almost works Moon’s strength and benefic condition is required. If we look on Muhurta, we will find the importance of Tithi, Vaar, Yoga, Karna, Nakshatra and Moon Sign. All of these have very much broader area of applications as well as some very specific areas of application also there. RahuKalanal Chakra is most effective for Cities, States and Countries around or surrounded Water bodies like Sea, Big Rivers etc as well as the events concerned at Mundane Level like political activities etc.

Note: Members are requested to test this properly in case studies, before applying it in daily practice, because every method/tool has own merits & demerits and areas of application.
